

Our Brands

Our customers have consistently relied on Rexnord's efficiency, knowledge and experience to deliver top quality products for their toughest applications. Our brands are used by customers worldwide who have already benefited from Rexnord's dedication to providing exceptional service and specialty solutions.

Process & Motion Control

Highly-engineered mechanical components used within complex systems where reliability requirements and the cost of failure and downtime are extremely high.

FALK

Falk industrial mechanical power transmission solutions has provided high-quality, reliable and rugged gear products for more than 100 years.

[Fluid couplings](#)

Thomas

Thomas manufactures disc couplings through design innovation, modern materials and lean manufacturing processes.

[Disc couplings](#)

marbett

Marbett provides engineered chains and belt products for beverage, food and automotive industrial applications worldwide.

Stearns

Stearns is the leading manufacturer of spring-set electrically set motor brakes.

[Cylindrical roller bearings](#)
[Sleeve bearings](#)
[Industrial chain](#)

Autogard

Autogard designs and manufactures mechanical torque limiters and flexible couplings for use in industrial power transmission systems.

[Torque limiters](#)

BERG

WM Berg is the leading miniature precision mechanical parts supplier in the world.

PSI

PSI manufactures slotted entry and split ball bearings for the Aerospace industry.

[Aerospace bearings](#)

Rex

Rex delivers quality gears, bearings and couplings that are site-proven in the world's most demanding applications.

[Elastomeric couplings](#)

Duralon

Duralon manufactures completely non-metallic bearings that achieve a quality and performance consistency that can't be duplicated with individual part processing.

[Ball bearings](#)

highfield

Highfield Manufacturing is an innovator and leading global producer of high-quality security systems for the electric, gas and water utility industries.
